Dear Dr. O'Callaghan,

Thank you very much for your help with our paper "Separation of an upwelling current bounding the Juan de Fuca Eddy" that we submitted to the *Journal of Geophysical Research Oceans*.

Both reviewers had very helpful and constructive suggestions. We have tried our best to take them all into account. The changes are minor, but have lead to significant changes to some of the figures (1, 5, 6, 7, 8, 11, and 12) and numerous updates to the text (see the tracked changes version of the PDF). We took most of the reviewers' suggestions, though there were a few where we just don't have the data to definitely address the requests. We have included a response to the reviewers that outlines out changes.

Thank you for your efforts editing at JGR.

Sincerely,

Jody M. Klimak
